

# UriniX

ECO-Conscious Odor Defense

Most deodorizers only mask odors. UriniX™ goes further, using advanced enzymatic technology to molecularly destroy malodors at the source. By breaking down uric acid crystals and organic waste at the chemical level, odors are permanently eliminated—not just covered up.

- ✓ Destroys malodor at the molecular level
- ✓ Will not harm waterless toilet seals
- ✓ Targets Uric Acid Build-up
- ✓ Fresh Scent
